ABOUT US

Huzur Leather is based in Istanbul, Turkey and first started trading in 1980, initially servicing the tourist industry in the south of Turkey with its own label. We have since then successfully expanded to outsourcing where we produce bags for major brands and independent designers.

Getting Started

If you want to benefit from a partnership with us please email us on sales@huzurleather.com to book an initial, informal chat.

WHY CHOOSE OUR PRODUCT

Our work with established labels and independent designers has proved to be so successful that we now focus most of our efforts in this area. We take charge from initial drawings to sourcing materials to final production. We will also manage all packaging issues using our trusted partners in the print industry. We offer a piece of mind to designers so they can focus on the designing and marketing. We take care of the rest.
